

Saint Joseph's College of Maine Career Studio First Destination Survey Summary

Each year, SJC graduates are asked to complete a survey about their transition to a career and provide details about their current (or soon to be) position. Surveys are sent beginning about a month prior to graduation, with reminders sent every two weeks until a month after graduation. Two final reminders are sent in September to those who have not replied.

Prior to 2019, SJC partnered with GradLeaders to administer "The Outcomes Survey." For 2020, we administered the "First Destination Survey" provided by our partner, Handshake.

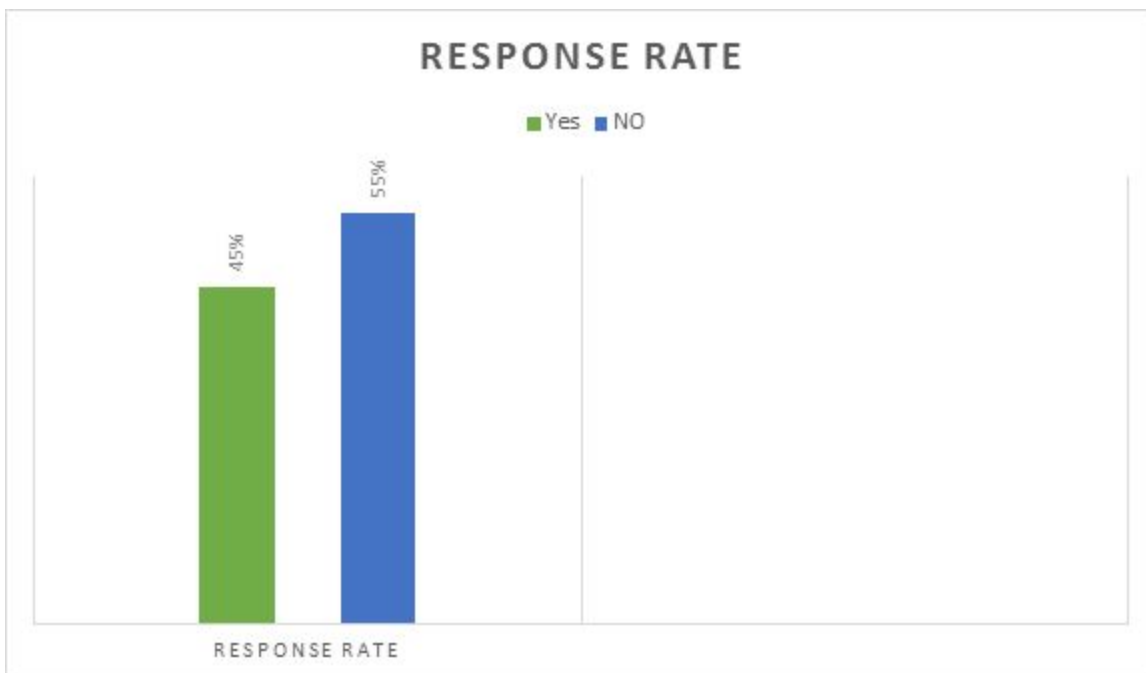

**Questions are not the same between the two surveys.*

Below, please find a sampling of findings from the 2020 survey.

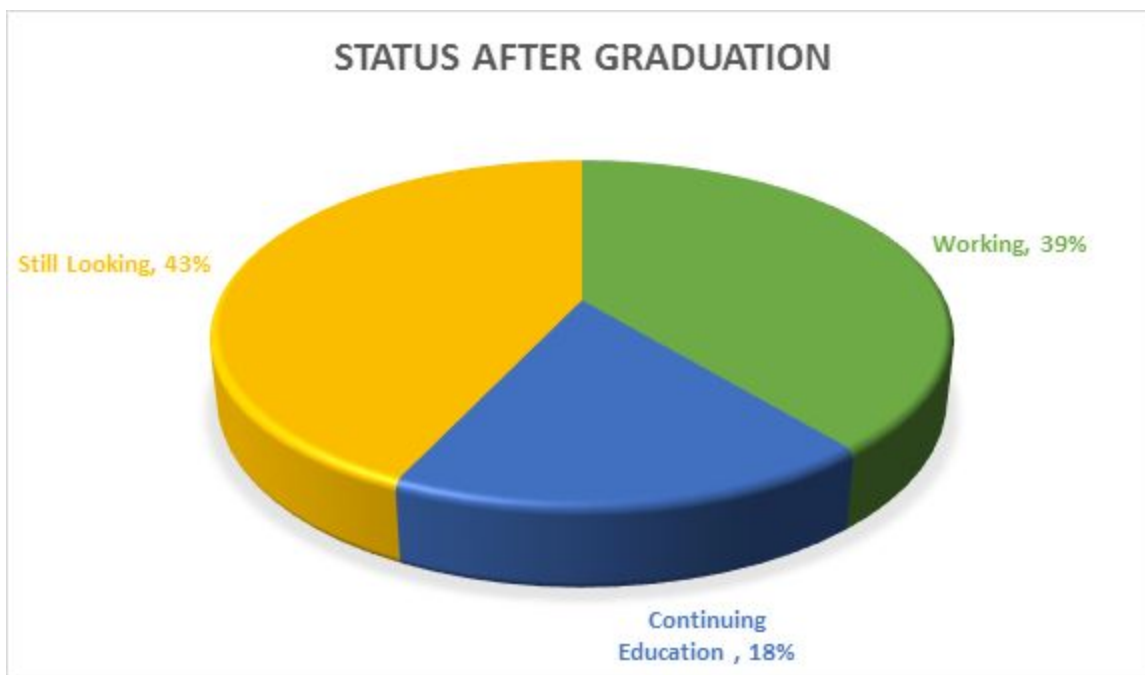

Saint Joseph's College Class of 2020

Survey Response Rate

For the class of 2020 94 of our 211 graduates responded to the survey.
